

# Social Care e-learning subscription

Learning Pool's new social care e-learning subscription helps public sector organisations make big efficiency savings in their adult social care services provision.

Create your own savings by swapping costly face to face training with e-learning. This will lead to an increased capacity of your social care workforce so that they make better decisions, apply assessment criteria consistently and are more aware of how their work impacts on managing resources.

Our new Adult Social Care e-learning subscription, from Ophira and Learning Pool, is an online training package for social care professionals – with a difference.

Not only is the suite of e-learning designed around the delivery of the Care Pathway, but you can also edit each course so you can tailor the content to your own audience.

## The complete package

Your subscription includes:

- over 11 hours of comprehensive e-learning courses created by industry leaders – this will grow
- unlimited licences to our Authoring Tool so you can tailor the courses and create your own
- a Dynamic Learning Environment (DLE) to deliver your courses from
- membership to the community of like minded public sector professionals allowing you to share courses and good practice

Your subscription lets you:

- create efficiencies with your training budget
- provide a comprehensive learning route that follows the adult social care pathway
- create your own e-learning courses which you can also deliver on your DLE
- track, evidence and monitor the learning taking place using your DLE
- benchmark and share best practice with others

## E-learning is cost effective

E-learning can cost 80% less\* to deliver than classroom based learning which can only be good news in today's budget conscious environment.

So you can train more learners for less money.

\*figures based on Learning Pool return on investment calculator

## E-learning is flexible

Because you can make changes to the courses yourself using our Authoring Tool, you can tailor the learning for your own audiences whilst ensuring that your key messages are consistent.

Don't have the time to make the changes you'd like? Learning Pool's content development team can help.

Your e-learning will be available to learners 24/7 for anytime, any pace, anywhere learning. The courses will always be available so your learners can revisit when they want. With our DLE you can also deliver training to partner organisations.

### Course catalogue

1. Safeguarding Adults	Available now
2. Mental Capacity Act	Available now

### What's the cost?

An annual subscription is £30,000 which includes unlimited usage to the content (no licence limitations) and the Learning Pool Authoring Tool, plus 5,000 learner licences for your DLE at any one time. Additional learner licences can be purchased.

Those who sign up before August 2010 can get an early bird discount of £10,000 on their subscription.

For current customers who would like to use their existing DLE, please contact us for more information.

### What others say

"We've been working with Ophira in Bexley and they have been managing our very ambitious Change Programme and identifying significant savings. The team has an exceptional ability in doing what they say they will do and are motivated by the outcomes they deliver for the council, rather than themselves."

Mark Charters, Director of Social and Community Services, London Borough of Bexley

"Learning Pool has opened up many networking opportunities with other councils who are all in similar situations. They take a great interest in building partnerships and they encourage us to build networks, all at a fair price. With Learning Pool, you get value for money."

Phil Lidster, Senior HR Practitioner, Birmingham City Council

### About us

Learning Pool helps public sector organisations drive organisational change, improve service delivery, build capacity and do it all with increasing efficiency. This is something we do for the whole of the public sector community, from central government departments to over 70% of councils in the UK.

Ophira specialises in social care development and health improvement. We are a registered preferred provider for personalisation for London Councils as well as being a preferred provider for social care in the East Midlands.
